CLOUD

the most luxurious of adventures

The 60m (196.9 ft) Cloud 9 with her elegant and contemporary interior and immaculate blue hull, offers luxurious but relaxed living. Designed by Andrew Winch and built by CMN, Cloud 9 accommodates twelve guests in seven cabins.

There is an impressive 500m² of light, open living space over five decks. Each deck is linked by the dramatic spiral staircase which wraps around a spectacular glass sculpture. A wealth of different materials creates a beautiful palette of texture, from polished marron imperial marble and burled plane wood, to woven leather panelling. The attention to detail throughout the yacht is painstaking. Even the detailing in the carpets underfoot echoes the architectural shapes overhead.

With a range of 5,000nm and a deeper than usual hull, Cloud 9 is extremely smooth and quiet underway and has a proven track record as a fully equipped, tried and tested world cruiser.

Let the adventure begin...

Cloud 9 cruises effortlessly at 14 knots

Wide open deck spaces offer relaxed living for twelve guests

sun deck

The 65m² sundeck features a spa dip pool with sunpads, a wet bar, barbecue, shower and day head. Glass doors can be closed to create a more sheltered al fresco dining area without spoiling the view. The huge sunbed aft allows uninterrupted views over the stern.

The bar and bbq on the sun deck

bridge deck

The bridge deck aft is a comfortable area for lounging and a natural gathering place before dinner in the perfectly conceived indoor/outdoor circular dining room. The sky lounge is bright and airy during the day and cosy in the evenings. Curtains can screen the dining area off and allow the space to be converted into a cinema. There is a VIP en suite cabin with a private balcony on the port side and a versatile twin pullman en suite guest cabin which can also be used as a gym or a spa as required.

Dinner is served on the magnificent indoor/outdoor bridge deck aft

The VIP bathroom

main deck

The central foyer features a dramatic glass sculpture which casts light off glass shards onto the ripples in the oxidised bronze panelling behind. There is an indoor dining area, a comfortable main saloon with pop-up television, a bar and a huge main deck aft. The long table on the aft deck offers another option for dining, or it can be lowered and the centre leaf removed to create a place to relax, play games or welcome guests for a cocktail party.

The entire main deck forward is dedicated to the master suite. The space is divided visually rather than physically with a study and chaise and 'his' bathroom to starboard, a circular bedroom with 'her' marble bathroom, walk-in wardrobe and vanity to port. Steps lead to a private full-beam observation lounge with whisky bar, library and chart table.

lower deck

There are two double cabins with baths and two twin cabins with shower rooms on the lower deck. The twin cabins can both be converted to doubles as required. Each guest cabin has a desk, television and ample wardrobe space. All guest cabins have excellent headroom and are finished in maple, walnut and marron imperial marble.
